SUPERIOR PERFORMANCE

for Advanced Digital Photographers

In the fast-paced world of professional digital photography, you rely on your camera and its capabilities. And you rely on your CompactFlash card to be fast, reliable, and compatible with your equipment. To meet the needs of professional and advanced-level photographers, SanDisk has developed a new, optimized CompactFlash card, which:

- Takes advantage of the advanced features of high mega-pixel digital cameras.
- Delivers superior speed. Now you can capture those high-resolution images even faster.
- Does it all with lower power consumption, which means longer battery life.

New SanDisk Ultra CompactFlash is perfect for demanding photo shoots, including photojournalism and event, sports, nature, and fashion photography.

Specifications

Write Speed*	Power Consumption (Read/Write operation @ 3.3v)	Durability (operational at shock level)	Warranty
up to 2.8MB/sec	<30mA	2,000 G force	Lifetime

*Actual performance may vary under different applications and conditions.

GET ONE

for Your Next Shoot

For your next demanding photo shoot, use SanDisk Ultra CompactFlash, which is available from 128MB to 512MB. Look for SanDisk Ultra CompactFlash in your favorite fine photography or electronics store. Or, visit us at www.sandisk.com to find the dealer nearest you.

BLAZING SPEED

for Action Shots

New SanDisk Ultra™ CompactFlash™ cards have a write speed of up to 2.8 megabytes (MB) per second. That's more than twice the sustained write speed of SanDisk's standard CompactFlash! You get blazing speed for all the things you do:

- Faster write speed means less time between shots.
- Ready for rapid-fire shooting.
- High-density flash memory and optimized controller technology let you save large image files faster.

*it's all
about*

SPEED

LOWER POWER

Consumption

New SanDisk Ultra CompactFlash minimizes power consumption to maximize your camera's battery life. So you get more shots per battery charge.

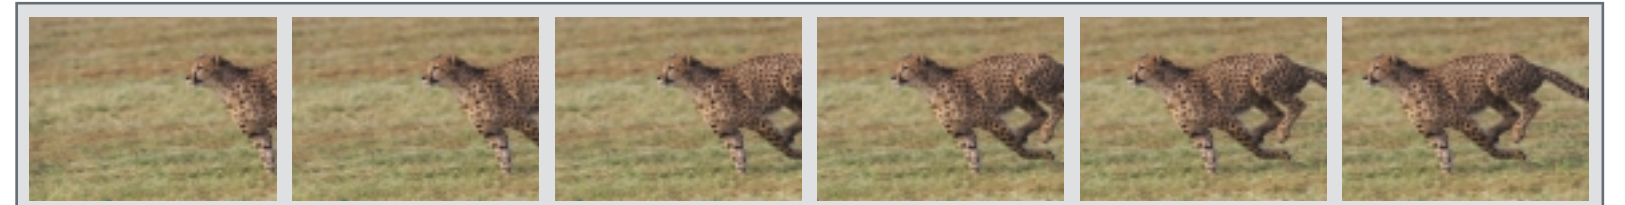

Operating Voltage Range Summary

Product	Voltage
CF/PCMCIA	3.3V and 5V

SanDisk **QUALITY**
and **RELIABILITY**

SanDisk is the worldwide leader in flash memory. New SanDisk Ultra CompactFlash is designed for heavy usage by professional and advanced digital photographers. And it's covered by a lifetime warranty.

Ready for Rapid-Fire Shooting

100%
COMPATIBILITY
Today...

SanDisk Ultra CompactFlash cards are fully compatible and interchangeable with all CompactFlash digital cameras, card readers, and adapters that comply with CFA specifications. SanDisk Ultra CompactFlash cards are also compatible with other CompactFlash digital devices such as handheld PCs and digital audio players (MP3).

...and **READY FOR
TOMORROW**

As high-end digital cameras advance to 4MP and higher, SanDisk Ultra CompactFlash is ready today with speed and embedded features that will take advantage of tomorrow's cameras.
